
SEA SURVIVAL RNLI EXPERIENCE

Is your team up to the challenge?

For a unique and challenging team bonding/building day or an unforgettable corporate event, nothing compares to the RNLI Sea Survival Experience.

Whilst the RNLI Sea Survival Experience has been developed to be enjoyable and fun, it is also challenging. By experiencing first-hand the training lifeboat crews rely on every day to save lives at sea, participants are taken out of their comfort zone. Team members see each other in new and sometimes surprising ways. And after completing the experience, participants feel a great sense of pride, and there is an increase in camaraderie among the team and a feeling that 'anything is possible'.
